

This app consists of two stages:

In the first stage, the student selects the subject and write his/her question below in the screen below and then clicks on Write answer

The screenshot shows the 'AI Tutor' app interface. At the top left is a logo with a graduation cap icon and the text 'AI Tutor'. Below it, a subtitle reads 'This app helps you to answer questions about different subjects'. The main section is titled 'Write your question here' with a sub-instruction 'Select the subject and then write your question'. There is a dropdown menu for subject selection, currently showing 'Geography'. Below the dropdown is a large text input area containing the question 'What is the capital of UAE ?'. At the bottom right of the input area is a button labeled 'Write answer'.

In the second stage, the app generates the answer and displays the result in the screen below

The screenshot shows the 'AI Tutor' app interface in the second stage. The title is 'Here is your answer' with a sub-instruction 'Find the answer to your question below'. A large text box displays the generated answer: 'The capital of the United Arab Emirates (UAE) is Abu Dhabi.' At the bottom right of the text box is a button labeled 'Save Answer'.

The user can then save the answer, this answer will be stored in Bubble Database
